

Product Range

Product Name:

Rockhard Range of Stoving Products

Product Number:

IP985-Range

Product Description:

The Rockhard Range of stoving/baking sealers/primers and finishes have developed over a number of years to meet the many exacting performance requirements of the aerospace and allied industries. The IP985 range brings the development up to date and features reduced VOC products, based on 'environmentally friendly' solvent systems and features the latest technology chrome free anti-corrosive primers.

Used typically on aero engine and gearbox components, manufactured from magnesium, aluminium, steel and titanium and also on components varying from heat exchangers to helicopter gearboxes.

Product Range:

Product Code	Description	Specification and Approvals
IP985-547	Clear – Normally used as pre-treatment coating for maximum magnesium protection	Turbomeca Spec LB 547, Eurocopter ECS-2264, MSRR 9226
IP985-6500CF	Non Chromate Primer	Turbomeca Spec LB 569, Eurocopter ECS-2178 IFC30-115-01 MD Issue: 2
IP985-0000	Gloss White	Turbomeca Spec LB 569
IP985-9000	Gloss Black	Turbomeca Spec LB 569
IP985-6005	Dark Blue Grey Gris Bleu Fonce Brilliant 6005	Turbomeca Spec LB 569
IP985-6174	Jaguar Blue Grey Gloss	IFC30-115-01 MD Issue: 2
IP985-6930	Medium Grey: Gris 8995 Aircraft Grey 693 BS 381 C	Turbomeca Spec LB 569
IP985 – BleuTM	Turbomeca Blue 5991	Turbomeca Spec LB 569 Eurocopter ECS-2178
IP985-JauneTM	Yellow 6246 / Jaune	Turbomeca Spec LB 569
